

WHO WE ARE

Established in 2021 by a group of industry thought leaders, the Farmland Capital Alliance is a **coalition-based** nonprofit membership organization headquartered in Washington, DC, focused on **large-scale U.S. farmland ownership, management and investment**.

OUR MEMBERSHIP

Membership participation is **open only to organizations that are owners, managers and farmers of large-scale farmland portfolios**, typically in excess of 12,000 acres held for farming in multiple states or a portfolio valuation in excess of \$250 million.

Member organizations will each have a seat at the table in a nonpolitical, nonpartisan, noncompetitive environment, working in collaboration with fellow thought-leaders in the sector. Together, **member representatives will define and prioritize topics and issues to be addressed by the Farmland Capital Alliance** on behalf of its member organizations.

MEMBER VALUE PROPOSITION

- Each member may nominate one individual to serve on the Farmland Capital Alliance's **Board of Directors** to participate in determining matters of policy and the long-term mission and vision for the Alliance. If preferred, members may decline the opportunity to join the Board of Directors in favor of a nonvoting, observer seat.
- Members may appoint one or more persons to the **Legal Committee** to help determine legal priorities and programming.
- Members may appoint one or more persons to the **Policy Committee** to assist the Alliance in the identification of priority issues and opportunities and the development of strategies around those key issues.
- Members will be eligible to participate in various **Working Groups and any additional Committees** that may be offered.
- Free attendance at **bi-annual Alliance meetings**, which provide networking opportunities and member-driven programming.

THE YEAR AHEAD

- The Alliance will hold our **next bi-annual meeting September 16-18 in Napa, California.**
- Continued Legal Committee **webinar programming**, including “The First 100 Days of Trump Administration” and a series on financial stress in the industry.
- Continued Policy Committee engagement, including monthly memos from top-notch DC consulting firm, Coefficient, the **development of issue papers and backgrounders** on priority topics and monthly meetings to discuss these priority issues.
- A confidential and anonymous membership survey is being conducted to better be able to **tell the story of the Alliance and the positive impact members have on rural economies** across the country.
- The Alliance is developing a website, including a members-only portal where the **growing library of resources** created by the Alliance will be available.
